Introduction

FPM-3171G is a 17-inch color TFT LCD flat panel monitor specifically designed for industrial applications. With a viewing size as large as 17", FPM-3171G presents an ample display area as well as vivid and sharp images for your HMI. FPM-3171G features direct VGA signal transmission. You can thus upgrade the displays without making changes to the existing system. The on-screen display function also makes it easy to adjust the images on the screen. The whole chassis is designed in stainless steel and the front panel is made of aluminum with NEMA4/IP65 compliance.
